## OBJECTIVE

To work with a company that appreciates innovation, where I can enhance my knowledge and skills to contribute effectively to the company's growth.

## EDUCATION

**B. Tech – CSE** [Pursuing]

SVERI's College of Engineering, Pandharpur [2022 – 25]

**Diploma in Computer Engineering** [86.51%]

SSWP, Solapur [2019 - 22]

**S. S. C.** [74.80%]

Sahastrarjun Prashala, Solapur [2018 - 19]

## PROJECTS

**Career – Mentor** [70% Completed]

Currently developing an app using React to assist students in making informed career decisions. The app features AI-powered career insights and real-time reviews from professionals. Working on integrating a chatbot for real-time guidance and evaluating its impact on student career planning.

Technologies used – React.js, Firebase, HTML, CSS

**Hotel Menu Card**

Designed an innovative Android app that digitized hotel menu cards, introducing item categorization and detailed descriptions, enhancing customer engagement and increasing order placement speed by 40% during peak hours.

Technologies used – Android, Java, Firebase

**MobileCare Plus**

Developed MobileCare Plus, a PHP and MySQL web app for managing mobile repair services, enhancing task tracking and business efficiency with strong security measures.

Technologies used - PHP, HTML, CSS, JS, Database
